## What are the benefits?

Timely, documented specialty guidance, facilitated by eConsults, leads to:

- improved care coordination and collaboration, leading to better longitudinal patient outcomes.
- empowered PCPs handling low-acuity patients through remote specialist guidance and eliminating the need for over 70% of in-person specialist referrals.
- reduced patient hospital Emergency Department visits and hospitalizations. AristaMD's data shows eConsults reduce ED visits by 11-12% and have a significant impact to the patient care plan in over 95% of patient cases.
